SPRING SUMMER 23
COLLECTION

Here comes the sun

Dress head to foot
in your favourite
sunshine blooms, skirts
and dresses printed
with delicate flowers.
Bikinis are made from
pretty lace, textures
and colourful stripes.
Trousers are loose and
flow in the breeze.

GLITZ AND GLAM

Put some sparkle in your step this season. This summer we're mixing threads of gold and silver into our colour palettes. This glitter reflects the sun's rays and colours are brought to life. It's time to add some shimmer to your look. Let's dazzle.

LET'S BLOOM TOGETHER

FIND YOUR COMBINATION

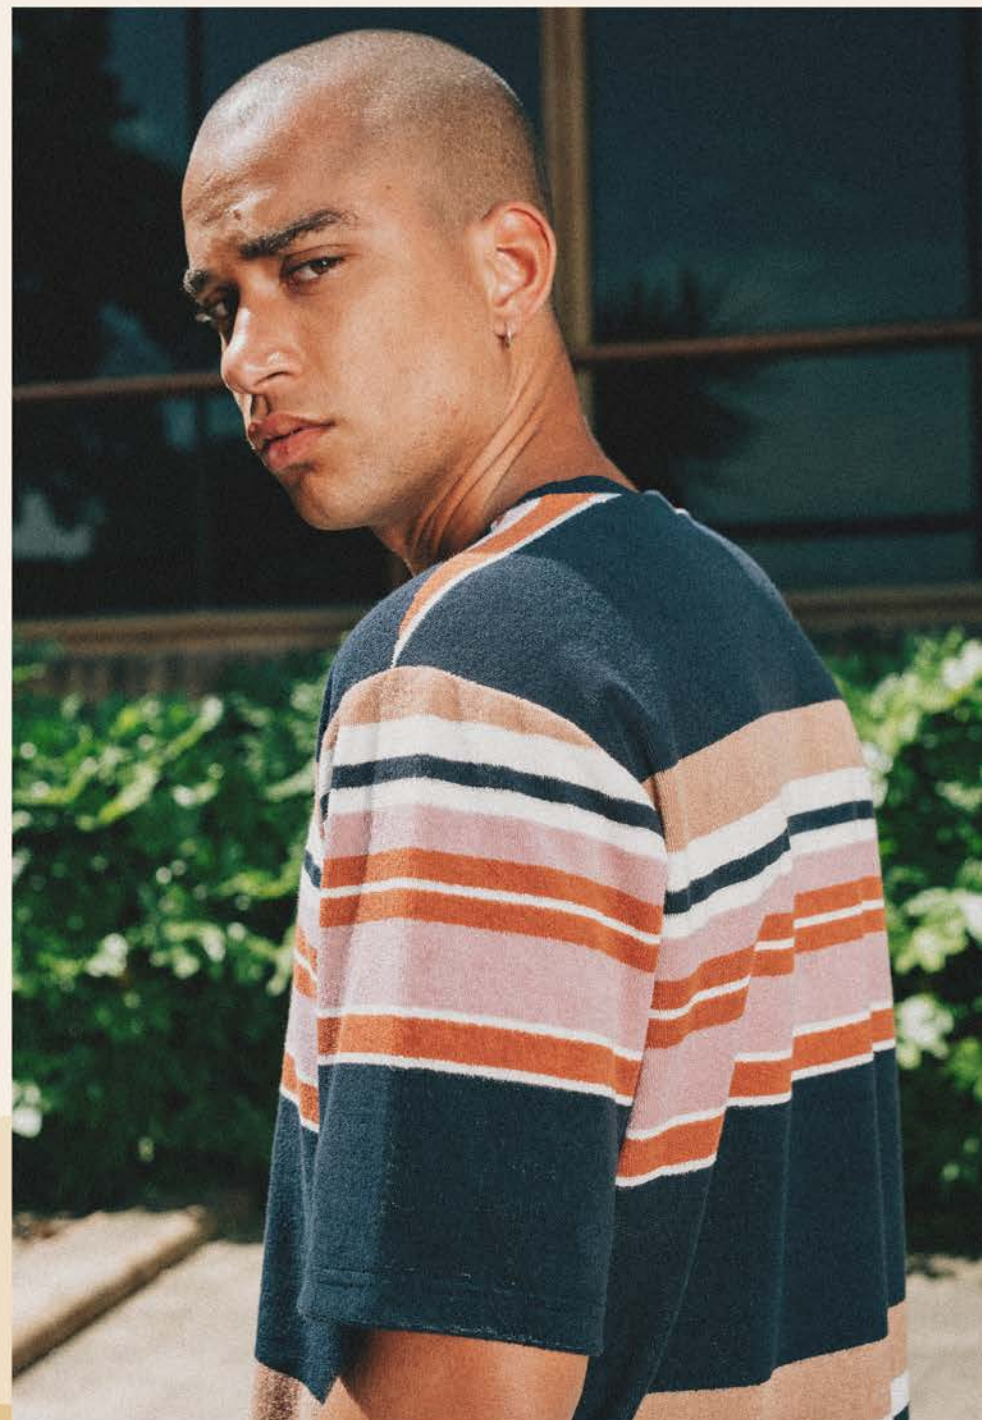

Catch you on the flip side

Those hazy crazy days of summer are approaching. Leave your worries behind and enter the season of laid-back style. Carefree and confident fuses with comfort and colour. Music carries in the air as the sun rays warm your skin and tell you to be ready to have some fun. It's time to hang loose and let the good times roll. Oh, we're in the mood for summer.

The way a garment feels. Maybe you can't see it but you can see when it feels good. Does that make sense? You feel better when the fabric that covers your skin is comfortable and comfort is a focus in this collection. We've been experimenting with different qualities that will have you feeling like you're on cloud 9. There is soft terry toweling, cooling linen blends and qualities that add texture and structure to you look. It's time to feel the difference!

COLOUR PUNCH

How do you meet the summer head on? It's your attitude and what you wear. You choose to greet the sun in kind, bright and confident. Colour elevates the way you feel, like when you're wearing your favourite shade - it gives you a boost of energy. Switch up your mood and turn up the colour! Bright tones contrast each other for maximum impact.

Illuminated in the sun, these colours can help maximize the summer. Wear these brights with carefree confidence and show the world your spirit!

To mark the arrival of the summer, co-ordinate your look. Easy to wear, as well as a true statement maker, the co-ordinate is a great way to dress up your sunshine days. This look means combining two matching separates to form a fantastic co-ordinated outfit. Choose a printed set for maximum impact or if you're looking for some understated cool, go for a monotone outfit. It's a versatile look that can be dressed up or dressed down, to suit your mood. Co-ords are a must for any summer wardrobe. Double the look, double the style.

DOUBLE TAKE

JOGGING SHORTS

With an appreciation of comfort on the rise, jogging shorts are the new must-have style for men and it's even entering street style. We've created several versions of these new classics. No longer just for chilling at home, these comfortable shorts are a new wardrobe staple. There are countless ways of styling these looks so it's time to have some fun with the perfect relaxed jogging shorts.

The natural world is coming alive; new growth, new green. The sun brings life; exotic flowers spring from the lush branches. This exuberant world inspires the creation of the botanical print, a design that exudes this tropical environment. Combine leaf, line and colour and the result is an image that expresses the true spirit of summer in all its splendor. Botanical prints have their roots in nature, they are studies of the glories of the wild. Wear them together or with a solid for the ultimate summer look.

THE SUMMER SOLSTICE

Embrace the southern sun. Slow down. Take it easy. You are already there. As the sun-soaked sand warms your body, let your eyes close and feel the warm air around you. Wear clothes that make you feel good; linens and organic cottons that cool your skin; bikinis and swimsuits that reflect your Mediterranean mood. Warm tones combine well with these easy-going styles. Watch the sunset with sand between your toes and a tall glass in your hand as the sun paints stripes on the water. Welcome to the sunny side.

It's a wrap. Fabric folds across the body accentuating natural curves and fabric becomes form. The wrap, whether it's a skirt, a blouse or a dress, is a flattering fit. The wrap is one of those versatile styles that can take you from the beach to the party. Throw it on over your bikini for day poolside, or accessorize it for a night out.

WRAPPED &

ROMANTIC

A look that just whispers 'summer', smocking is romantic and whimsical. This technique has been around for centuries. It's an embroidery method that creates stretch in a garment. The stitches bring together the fabric and when you wear it, it stretches. This creates a body-hugging summer look that will be everywhere this season.

SUMMER DESTINATION

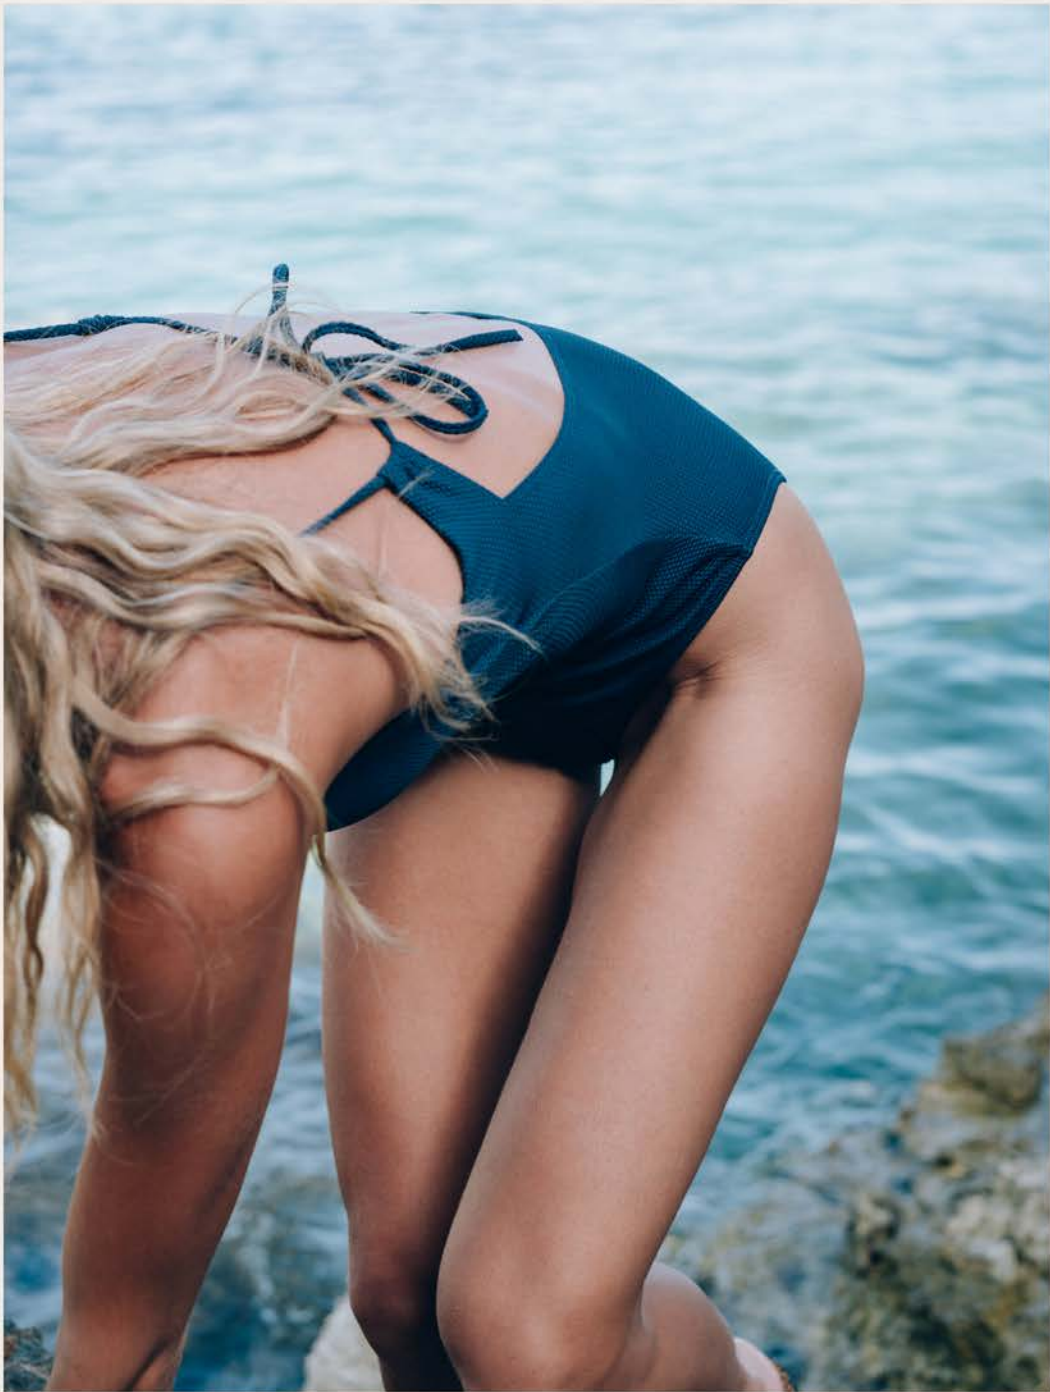

SUMMER IS A
STATE OF MIND

SUMMER IS A
STATE OF MIND

Stripes. What could be simpler? Fresh and colourful for those warm days. Feel good fabrics have lines woven into the structure while ribbed fabric is made up of stripes that you can feel, not just see. We're combined the easy-going stripe with ruffles and shine for an extra dimension. Try going vertical or horizontal stripes, or even a fusion of these as we printed a horizontal stripe on a vertical rib. Lurex bands add sparkle to multi-coloured stripes.

THIS MUST BE THE PLACE

Welcome to the sunny side.

Let the freedom of being on the water inspire you. It's time to reconnect with yourself and with the ocean. Our mission here at Protest is to help everyone ride more. Life is, after all, best enjoyed on a board. This season we present a collection of functional rash guards in which we have merged design with the technical properties that allow you to get the most out of your ride. In the short-sleeved PRT Legundi and long-sleeved PRT Looma, we have used a bamboo-blend fabric. This fiber provides natural UV protection and can filter the sun's harmful rays, handy for days spent outside. The technical fabric used to create our rash guards is stretchy as well as being quick drying. And of course, these pieces can be combined with every pair of swim shorts or boardshorts in our collection. Let the games begin.

A woman in a purple and black wetsuit is surfing on a wave in the ocean. She is standing on a surfboard, leaning forward with her right arm raised. The water is a deep blue-green, and the sky is a clear, pale blue. The entire scene is framed by a light beige background with white curved lines.

**SUP
SURF
collection**

Let nothing stand in the way of your time on the water. Here at Protest, we want to help the everyone to get the most out of their time doing what they love. That's why we've designed this amazing group of technical SUP Surf pieces. This entire series is made using recycled polyester - better for the planet, better for us. This sustainable fabric also has SPF50, acting like a sun block wherever the skin is covered by the garment. Another feature of these SUP Surf pieces is 360degree stretch for unrestricted movement. This series includes bikinis, rash guards, a spring suit, shorts and leggings. The garments are made up of a mix of an awesome tie dye print and a floral design contrasted with solid colours and a patterned stripe. You can also pair up a rash guard with our beach shorts or bottoms from our Mix&Match series. It's time to reconnect with the ocean in this fantastic series of SUP Surf clothing.

Seeking something with a handmade feel, tie dye echoes a spontaneous feel-good spirit. We love experimenting with colour and paint, seeing what happens when two shades blend into one another. Our designers have looked at these techniques where colour is the focus and where the design is left, just a little bit, up to chance. Tie dye is the perfect method to allow the hues to create accidental forms. And the result is joyous bursts of colour.

Here at Protest, we are taking positive steps towards a more sustainable approach to our clothing production. Nobody is perfect. Neither are we. But we're doing what we can, when we can. This season we've taken a big step in the number of articles in our collection that are made using sustainable fabrics. To date, we have created styles using BCI certified cotton, recycled polyester and elastane, bamboo charcoal, bamboo, Repreve fabric and Tencel. The essence of our journey towards sustainability is our PVRE Green collection in which the focus is greener production and greener products. We're assessing our processes and putting into practice new ways to create our clothing for a better tomorrow. Join us on the journey!

Together we'll get there.

TECHNICAL GUIDE FOR BOARDSHORTS

UPDATED
FIXED ELASTIC
WAISTBAND

HALF ELASTIC
WAISTBAND

Our boardshorts are our high-performance swim shorts. Made for the athlete, these shorts are technically advanced to help you get the best out of your ride. This season we're upgrading our line with fixed waistband styles with hidden adjustable cords so that you can get the fit that you need. There are also half-elastic styles with an elasticated section at the back. Many of our boardshort styles form part of our PVRE Green series. This is a fusion of our PVRE line, our technical range, and our desire for sustainability. These PVRE Green shorts are made from recycled polyester, created by turning used PET bottles into yarn and weaving it into this functional fabric. This material is durable, quick drying and has 4way stretch so you are unrestricted. No PFC's were used in the creation of any of our swimwear. With other technical details like an anti-slip waistband, a lycra fly and interior pocket with keycord, these boardshorts are made to help you get there.

SUSTAINABLE MATERIALS IN OUR COLLECTION

TENCEL

Tencel is one of our sustainable fabrics. This fantastic material has a botanic origin. It is actually created using wood from sustainably-harvested forests. Chemicals are used to convert the wood into a cellulose fiber, but these chemicals, as well as the water used in production, are recycled back into the process. This fabric has so many good qualities. Its production creates little waste, uses little water and is created from renewable resources. The material itself is amazingly soft, super breathable and also biodegradable.

BAMBOO CHARCOAL

Sounds crazy doesn't it! Burnt bamboo. But by breaking down bamboo charcoal into tiny particles, it can be combined with polyester to create a fabric that has amazing breathability, UV and odor resistance, as well as being supremely comfortable and sustainable. Bamboo grows pretty fast and needs less water than other trees. Also, it is not necessary to use insecticides and pesticides in bamboo cultivation, as bamboo is pest resistant. By using this material, the carbon impact the manufacturing of these swim shorts has on planet will be reduced.

REPREVE

Protest has teamed up with REPREVE, a specialist in upgrading used plastic into a superior functional fabric. The technical polyimide fabric that we are using is made from pre-consumer waste material, so the by-product of production itself.

RECYCLED ELASTANE

Swimwear just wouldn't be the same without it! It provides stretch and 'bounce back' as we like to call it. The stretchiness of elastane makes the swimwear fit to the body while allowing for totally flexibility. Its 'bounce back' properties are important for the recovery of the form of the swimwear after wearing. No saggy swimwear please. Elastane is a complex synthetic fibre, which like polyester; takes as many as 200 years to break down. So we've sourced a recycled elastane for our 'bounce back'!

RECYCLED POLYESTER

Polyester is an important component in our clothing, which is durable, flexible and quick drying. A big problem with polyester is that there is an overabundance of this plastic, filling up landfills and polluting our oceans. So, to address this issue, a selection of our garments is made using recycled polyester. This polyester is created by processing discarded P.E.T (polyethylene Terephthalate) bottles into fabric.

BETTER COTTON INITIATIVE

Cotton is a renewable resource, but its production is vulnerable to poor environmental management and working conditions. Protest wants to make sure the cotton they use meets a certain standard and that's why they have started creating with BCI cotton. BCI stands for Better Cotton Initiative and it is a non-profit organization that promotes better standards in cotton farming, focusing on the preservation of soil, conservation of water and fair labour conditions.

CORPORATE SOCIAL RESPONSIBILITY

For FW21/22 we have reached a point where sustainability is forming an integral part of our collection. To indicate clothing that forms part of our commitment to sustainability we have the PVRE Green label. PVRE Green is our commitment to this wonderful planet. Our clothing that carries this label is made using sustainable fabrics. For the FW22/23 winter collection nearly all new men's jacket styles are made using recycled polyester. This technical fabric is created from converting used plastic bottles into a polyester yarn. With every day we are striving for greener production, greener products for a greener planet! Join us. Together to green.

Corporate Social Responsibility or CSR is our way of taking responsibility for the impact that our business has on people, the environment and the society as a whole so it's linked to sustainability as well as ethical work standards. As part of our continued efforts to improve our sustainability, we are reviewing and improving the way our garments are made. Within the production process, we are striving for more people-friendly and green practices.

- Protest is a member of **Amfori BSCI**. The goal of this organisation is to improve social performance in global supply chains. This means we offer safe, humane working conditions and fair pay. There is no child labour.
- Protest complies with the **REACH** standard, which addresses the production and use of chemical substances. We don't use fabric dyes like AZO or PFC treatments that are harmful to people and animals. We have our products tested at **Textile Lab** and **Bureau Veritas**.
- As part of our effort to improve our sustainability, our collection consists a range of materials, from recycled polyester and nylon to sustainable bamboo and organic cotton, made with minimal impact on the environment. We have used REPVEVE materials for thermal layers and a fabric, which fuses coffee grinds with recycled polyester, for outerwear. We use Oeko-Tex standard 100 fabrics. For our packaging, we use recycled cardboard and plastic.
- We are striving to remove all PFC's from our collection. PFC's or perfluorinated chemicals are used to waterproof garments but PFC's are virtually non-degradable in nature. We have found an eco-friendly replacement for PFC's, inspired by water repellents found in nature.
- As of the spring/summer 2022, we are using the Higg index to assess the social and environmental impact of our supply chain. This index allows us to achieve measurable results and track our improvements. Every part of our process is followed and assessed from the management system to transport and distribution. This measure will help us pinpoint areas that need attention and help us improve our sustainability.
- We care about animal welfare; we use alternatives to real duck down and we never use real fur or angora wool.
- Our products are transported by sea in an effort to reduce our carbon footprint. Transport by truck or by air would be one hundred times as much.
- Our head office in the Netherlands is powered by our own supply. Ten thousand solar panels have been placed on the roofs of our buildings, putting us in the Top 10 of the largest solar panel surfaces in the Netherlands. Today we don't just produce enough for our own energy needs; we also put electricity back in the system.
- Our clothing is designed to last a really long time; we choose durable materials and well made constructions to reduce the need to buy more and thereby reducing the impact on the environment.

With every day we realise the effects that we as humans are having on this earth. In order to keep living our mantra 'to get there', we need to do all we can to protect the environment that we call home. Join us on our journey to a greener tomorrow.

We're looking for balance. A life led closer to nature with time spent outdoors no matter the elements. Protest has designed a range for these moments, whether you're hiking the trail or running to work. It's all about being prepared; clothes made from functional fabrics that help you get the most out of your time. It's the waterproof and breathable raincoat for that surprise spring shower or the leggings for your morning run. We've created a range that includes T-shirts, shorts, trousers, jackets and more. As new additions this season, we are adding shorts and trouser styles in 4 way stretch quick-dry fabric with technical details like zip-off lower legs, adjustable waistbands and handy zippered leg pockets. These functional elements are integrated into the design of these pieces to help maximize the experience. No matter the weather no matter the adventure.

Counting the hours and minutes till you can get on your bike. You can't wait for that feeling of exhilaration as you become one with the trail and enter that world where the physical challenge and nature collide. To have you prepared for that moment, Protest has created a range of cycling essentials for men and women. We want to help you truly enjoy that unpredictable ride, whether you'll on the smooth road or gravel biking along the rugged trail. Each piece in this collection is a fusion of functionality and design; pieces that look good and are made to perform.

The range has many technical details including anti-slip silicon-elastic and reflective elements. The fabric is moisture wicking, quick-drying and supremely comfortable. Ideal for warmer weather, this line of advanced bike clothing is made for road and trail riding and includes cycling jerseys, shorts and bib shorts. Within the range, there are also bodyfit base layers for men and women. These base layers are made out of a technical mesh fabric that has a dual function. This material is moisture-wicking, helping to regulate body temperature when warm and on cooler days this same layer adds insulation.
